Summary

- Responsive web design
- E-commerce development
- Technical support
- PHP
- HTML
- Website analytics tools
- Website updating
- SEO techniques
- Web security
- Web development projects
- Website optimization
- UI and UX prototyping

Experience

I'm Web Developer

- Developed responsive web designs using HTML, CSS, and JavaScript.
- Collaborated with team members to gather project requirements and feedback.
- Assisted in troubleshooting and debugging website issues for optimal performance.
- Maintained website content using content management systems effectively.
- Implemented user interface improvements based on usability testing insights.
- Supported website updates and enhancements following best practices in coding.
- Participated in code reviews to ensure adherence to coding standards.
- Researched emerging web technologies to enhance skill set and project solutions.
- Developed web applications using HTML, CSS, JavaScript and JQuery.
- Built layouts according to customer parameters using HTML5 and CSS3.
- Collaborated with other developers on coding projects.
- Designed websites, portals, and large-scale web applications for multiple clients.
- Monitored website performance and optimized code for speed optimization.
- Integrated third-party APIs into existing websites and applications.
- Provided technical support in resolving customer issues related to web development projects.
- Worked closely with designers to implement UI and UX designs accurately in the codebase.
- Designed database schemas to store user data securely.
- Tested cross-browser compatibility for websites and applications in Chrome, Firefox, Safari, Opera and Internet Explorer.
- Integrated back-end services with PHP, Node.js, and Ruby on Rails to support website functionality.
- Managed website deployment and maintenance, including troubleshooting and performance optimization.
- Implemented front-end development using HTML, CSS, and JavaScript to create visually appealing web pages.
- Utilized AJAX and JSON to enhance website interactivity and improve user experience.
- Developed e-commerce sites using platforms like Shopify and Magento, including payment gateway integration.
- Developed custom WordPress themes and plugins to meet specific client requirements.
- HTML
- Website analytics tools
